**RITA
PAD**

Printing-Systems

MDM 100 D GF

Main Features and Benefits

1. Two colour printing with only one stationary fixture.
2. Two colours can be independently printed for more capacity.
3. Two independently operated pad cylinders allow printing on two different levels.
4. Specially designed index unit for smooth and accurate pad rotating motion and high colour registration accuracy.
5. Sealed ink cup system provides continuous operation, high quality print and low ink maintenance.
6. Cliché adjustable for X-Y positioning for fast and accurate print positioning and colour registration.

DON'T JUST PAD PRINT IT, RITA PAD PRINT IT
